CODE TANTRA - CODING LEARNING CENTRE

ABOUT

Code Tantra - Coding Learning Centre" is a premier educational institution dedicated to nurturing coding and programming skills. With a focus on providing high-quality coding education, it offers a range of courses and workshops tailored to learners of all levels, from beginners to advanced coders. Code Tantra is committed to fostering a supportive and innovative learning environment, equipping students with the knowledge and expertise needed to excel in the dynamic world of technology. Whether you're looking to kick start a career in software development or simply enhance your coding abilities, Code Tantra stands as a beacon of knowledge and a gateway to success in the digital age.

OBJECTIVE

- To understand the syntax and semantics of various programming languages (C, C++,Java, Python)
- To get a new perspective of problem solving by choosing appropriate programming domains for software product development
- To make students a competent data analyzer or data scientist by learning Big Data and Hadoop
- To increase the ability of program testing and debugging using the Selenium testing tool
- To prepare students for competitive based learning by participating in global level coding contests.

CENTRE HEAD

Mrs.N ANGAYARKANNI M.E, Assistant Professor/CSE

OUTPUT

- Design and implement software applications using C, C++ basic constructs.
- Develop software products for industries in various programming platforms
- Understand the key issues in big data management and its associated applications in intelligent business and scientific computing.
- Student can test and debug various software products effectively.
- Student will be able to develop real-time web and mobile applications
