MAJOR PROJECTS:

1. Title :

- Privacy enabled dynamic regimentation of photo posting on online social networks.

- Under guidance of Prof. Dr. N.C.Brindha., Ph.d
: Core Java

2. Platform

3. Objective :

- Sharing a photo on Online Social Networks (OSNs) is an attractive feature. But, user's privacy will be leaked, if a photo is allowed to post, comment and tag freely. We made a attempt is made to address this issue and make a study of a scenario that when a user posts a photo containing people other than himself or herself.

4. Title :

- ANT colony optimization for resource and Timing constrained operation scheduling.

- Under guidance of Assistant Prof. Mr. Pc. Dinesh., M.E
: Core Java

5. Platform

6. Objective :

- To proceed the job in a time and resource sharing environment. We can assign a lot of jobs at a time and get output from the different resources within a time. The strategy is based on the Ant colony optimization.
