Feedback Questions and Curriculum

Students

1. Rate the sequence of the courses as per the courses studied in the previous semesters

2. Rate the syllabus of the courses that you have studied in relation to the competencies expected out of the course

3. Rate the relevance of the units in Syllabus relevant to the course

4. Rate the sequence of the units in the course

5. Rate the allocation of the credits to the courses

6. Rate the distribution of the contact hours among the course components (Lecture-Tutorial Lectures-Practical)

7. Rate the offering of the electives in terms of their relevance to the specialization streams

8. Rate the electives offered in relation to the Technological advancements

9. Rate the relevance of the Text Books and reference books by their International recognition to the Courses

10. Rate the Size of syllabus in terms of the load on the student

11. Rate the courses in terms of extra learning or self learning considering the design of the courses

12. Rate the courses in terms of sequence of offering considering whether the preceding courses have been covered.

13. Rate the loading of the courses in a semester

14. Rate the evaluation scheme designed for each of the course

15. Rate the objectives stated for each of the course

16. Rate competencies expected out of the course

17. Rate the composition of the courses in terms of Basic science, Engineering science, Humanities, Discipline core, discipline elective, open elective, project

18. Rate the percentage of courses having LAB components

19. Rate the domain used for designing the experiments for the LAB components

20. Rate the experiments in relation to the real life Applications

Feedback Questions and Curriculum

Faculty

1. The curriculum and Syllabus are well organized and suitable to the program

2. Rate the clarity and appropriateness of program outcomes specific to the program

3. Rate the sequencing of courses offered in the curriculum

4. Rate the availability of department library and ICT tools like LCD projectors, software

5. Rate effectiveness the system and processes followed by the university for the design and development of curriculum

6. Rate the distribution of the contact hours among the course components (Lecture-Tutorial Lectures-Practical)

7. Rate balancing of the theory and practical courses in the curriculum

8. Rate the courses in curriculum which improve students knowledge and skills through experiential learning

9. Provision to update and revise curriculum on regular basis

10. Rate the electives offered in the program encompass technological advancements

11. Rate the activities like industry visits, guest lectures and workshops conducted in the department which encourages students learning of courses in the curriculum

12. Rate the evaluation methods of all the courses in the curriculum

Feedback Questions and Curriculum

Employers

1. Rate the sufficiency of the courses in program curriculum directly linked to the industry skill sets

2. Rate relevance of the courses in the program curriculum with industry requirements

3. Rate technical competencies enhanced through courses in curriculum

4. Rate the offering of the major courses in relation to specific domains

5. Rate the offering of the electives as par with technological advancements

6. Rate skills-oriented courses in the curriculum cater to the Industry needs

7. Rate the relevance of the topics in the courses to the Industry

8. Rate the application of tools and software in curriculum helps for existing practices in the Industry

9. Rate the hands-on training in labs and workshops embed in the syllabus helps in solving industry problems

10. Rate the project works in curriculum enhances students to build real-life applications

Feedback Questions and Curriculum

Alumni

1. Rate relevance of the courses in curriculum to industry specific needs

2. Rate the courses that you have learnt in relation to your current Job

3. Rate the skills and competencies derived from the courses which enhances employability skills

4. Rate the sequence of the courses in the programs

5. Rate the offering of the courses in relation to the specific domains

6. Rate the electives selected in curriculum strengthen skills leads to technological developments

7. Rate the courses which are skills oriented suits to the Industry requirements

8. Rate relevance of the tools and software specified in curriculum to excel in job or higher studies

9. Rate the standard of lab experiments for solving industry problems

10. Rate the courses in curriculum which directly helps to design and build real life applications
